

## COOP MINERALOEL / COOP PRONTO / COOP HEIZÖL

**Coop Mineraloel** operates a network of **Coop Pronto** shops with and without a filling station and is the number one in the Swiss convenience and fuel market. In the Coop Pronto Shops, customers can find a wide range of fresh produce and convenience products in particular. The shops are operated under a franchising system and have especially attractive opening hours: wherever the legal requirements permit, they are open from 6 a.m. until 11 p.m., 365 days a year. Coop Mineraloel AG is one of the least expensive fuel providers in the Swiss market. As well as petrol and diesel, some Coop filling stations also sell gas; since November 2016, Coop Mineraloel AG has also been operating Switzerland's first public hydrogen filling station. Another activity involves the sale of heating oil via the online platform **Coop Heizöl**.
